2 Risk Factors

All investments in interest bearing securities have risk associated with such investment. The risk is related to the general volatility in the market for such securities, varying liquidity in a single bond issue as well as company specific risk factors. An investment in interest bearing securities is only suitable for investors who understand the risk factors associated with this type of investments and who can afford a loss of all or part of the investment. Please refer to the Registration Document dated 3 June 2022 for a listing of company specific risk factors.

2.1 Risks related to the bonds

There is a risk that the value of the Bonds may decrease due to changes in relevant market risk factors. The price of a single bond issue will, generally, fluctuate due to general developments in the financial market, as well as, specifically, investor interest in (and, thus, the liquidity of) the Bonds. Accordingly, there is a risk that the value of the Bonds may decrease in spite of an underlying positive development in the Issuer's business activities.

If the Issuer's early redemption right (ordinary or conditional (Regulatory Call, Tax Call and/or Rating Call) as stated in the Bond Terms) is exercised, the Call Price is 100 % of the applicable denomination at the time of an early redemption. The Call Price may limit the market value of the Bonds and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.

Liquidity risk

Missing demand for the bonds may result in a loss for the bondholder in the form of not getting access to liquidity through sale of the bonds but has to wait until maturity for the bonds to receive liquidity.

Interest rate risk

The interest rate or coupon of this instrument will most likely consist of two elements: a) 3 month NIBOR and b) the Margin. The risk is associated with the variability of the sum of these two components. The Margin is fixed at issuance of the bonds and will not represent a risk for an investor as regards the interest income from the bonds. 3 month NIBOR is a reference rate for pricing of 3 month liquidity in the market and will vary over time. The coupon is reset quarterly based on actual 3 month NIBOR plus Margin. This means the risk to interest income from the bonds is associated with the changes in NIBOR. When trading this instrument, the investor is exposed to the risk of changes in market changes in 3 month NIBOR as well as changes in market changes to the margin investors are willing to trade the bonds. These changes will affect the price of the bonds.

Interest rates and indices which are deemed to be "benchmarks", (including NIBOR) are subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted.

There is always a settlement risk that the settlement of bonds does not take place as agreed and a credit risk that the Issuer fails to make the required payments under the Bond (either principal or interest).

Settlement risk

The risk that the settlement of the Securities does not take place as agreed. The settlement risk consists of the failure to pay or the failure to deliver the bonds.

Credit risk

The risk that the Company fails to make the required payments (either principal or interest). Market risk is the risk that the value of the Securities will decrease due to the change in value of the market risk factors. The price volatility of a single bond issue will fluctuate in accordance with the interest rate and credit markets in general, the market view of the credit risk of that particular bond issue, and the liquidity of this bond issue in the market. In spite of an underlying positive development in the Company, the price of a bond may fall independent of this fact. Bond issues with a relatively short tenor and a floating rate coupon rate do however in general carry a lower price volatility compared to securities with a longer tenor and/or with a fixed coupon rate.

No market-maker agreement is entered into in relation to this bond issue, and the liquidity of bonds will at all times depend on the market participants view of the credit quality of the Company as well as established and available credit lines.

2.2 Risk factors that especially apply to Subordinated Tier 2 Own Funds instruments (“Tier 2”)

Due to the status of each of the Tier 2 Bonds as unsecured and subordinated debt obligations of the Issuer, in connection with a Bankruptcy Event of the Issuer, the Tier 2 Bonds will rank: a) pari passu without any preference among the Bonds; b) pari passu with all outstanding Parity Obligations; c) in priority to payments to creditors in respect of Junior Obligations; and d) junior in right of payment to any present or future claims of (i) policyholders of the Issuer, and (ii) any other obligations of the Issuer ranking or expressed to rank senior to the Tier 2 Bonds. Junior Obligations means (i) the Issuer’s share capital, or (ii) any other obligations of the Issuer ranking or expressed to rank junior to the Tier 2 Bonds. In case of a Bankruptcy Event, payments to investors in subordinated debt will depend on funds left after payments are made to unsubordinated creditors. This may result in a loss for the bondholder. From the status of the Tier 2 Bonds it also follows that the interest payments may be deferred and accrual of interest on the deferred amount will be made for later payment. Consequently, the investor may not receive timely coupon payments to spend or reinvest. Further, redemption of the principal amount at the stated maturity date may be suspended by the Issuer Supervisor if the Issuer is not in compliance with capital requirements. Finally, if the audited accounts of the Issuer show that a substantial part of its subordinated debt capital has been lost, the loss may be absorbed by reduction of the nominal value without any accompanying payment to the investors.

The Tier 2 Bonds are scheduled to be redeemed at their principal amount on the maturity date (the "Maturity Date") provided that on such date that there is no suspension of redemption and the preconditions to redemption as described in the Bond Terms are all fulfilled, including but not limited to the continued solvency of the Issuer and the approval by the Issuer Supervisor has been obtained. The Issuer is under no obligation to redeem the Tier 2 Bonds at any time before the Maturity Date, and the Bondholders have no right to call for their redemption. If the Issuer does not fulfil its Solvency Condition, the Maturity date may be postponed without any compensation other than the accrual of coupons.

Interest payments under the Subordinated Tier 2 instrument may be optionally or mandatorily deferred. Any deferred interest is accumulated but will not carry any interest. The interest payment obligations (including any deferred interest) of the Issuer under the Bond Terms are conditional upon the Solvency Condition. Other than in a Bankruptcy Event, no amount will be payable under or arising from the Tier 2 Bonds except to the extent that the Issuer could make such payment in satisfaction of the Solvency Condition. Any actual or anticipated deferral or of interest payments is likely to have an adverse effect on the market price of the Tier 2 Bonds.

Mandatory Deferral:

No Bonds shall be redeemed on the Maturity Date, or prior to the Maturity Date pursuant to the relevant provisions on Optional Redemption, if the date set for redemption is a Mandatory Redemption Deferral Date and redemption shall be deferred. Any failure to pay principal due to a Mandatory Deferral shall not constitute a default by the Issuer for any purpose, provided that nothing shall be construed to permit the Issuer to defer any principal otherwise due and payable except under the circumstances specified in the definition of Mandatory Redemption Deferral Date.

Notwithstanding that the date set for redemption may be a Mandatory Redemption Deferral Date, the Bonds may be redeemed and the relevant redemption amount may still be paid to the extent permitted under, and in accordance with, the Applicable Regulations.

The Issuer shall notify the Trustee (on behalf of the Bondholders) and the Paying Agent no later than five (5) Business Days prior to any date set for redemption of the Bonds if such redemption is to be deferred, provided that if the conditions to the date set for redemption being a Mandatory Redemption Deferral Date are satisfied less than five (5) Business Days prior to the date set for redemption, the Issuer shall give notice of such deferral as soon as reasonably practicable following the occurrence of such event.

If redemption of the Bonds does not occur on the Maturity Date or, as appropriate, the date specified in the relevant Redemption Notice by the Issuer, as a result of a Mandatory Deferral the Issuer shall (subject, in the case of paragraphs (a) and (b) below only, to the provisions of subordination and to receiving the prior approval of the Issuer Supervisor (if required)), redeem such Bonds at their principal amount together with any Arrears of Interest and any other accrued and unpaid interest, upon the earliest of:

- (a) the date falling ten (10) Business Days after the first date which immediately follows the date set for redemption and which is not a Mandatory Redemption Deferral Date (unless such 10th Business Day is itself a Mandatory Redemption Deferral Date, in which case this paragraph will apply *mutatis mutandis* to determine the due date for redemption of the Bonds); or
- (b) the date falling ten (10) Business Days after the Issuer Supervisor has agreed to the repayment or redemption of the Bonds; or
- (c) the occurrence of a Bankruptcy Event,

and the Issuer shall give the Redemption Notice to the Trustee (on behalf of the Bondholders) and the Paying Agent as soon as reasonably practicable following the occurrence of the relevant event triggering such redemption.

If the Mandatory Deferral provisions do not apply, but redemption of the Bonds does not occur on the Maturity Date or, as appropriate, the date specified in the relevant Redemption Notice by the Issuer because the Issuer was not or would not be solvent, such Bonds shall, subject to receiving the prior approval of the Issuer Supervisor (if required), be redeemed at their principal amount together with any Arrears of Interest and any other accrued and unpaid interest on the 10th Business Day immediately following the day that:

- (a) the Issuer is solvent; and
- (b) the redemption of the Bonds would not result in the Issuer ceasing to be solvent,

provided that if such Business Day specified for redemption is a Mandatory Redemption Deferral Date, then the Bonds shall not be redeemed on such date and the provisions above shall apply *mutatis mutandis* to determine the due date for redemption of the Bonds.

At the same time as delivering any notice of deferral of redemption to the Trustee (on behalf of the Bondholders), the Issuer shall send to the Trustee a certificate signed by an authorised signatory of the Issuer confirming that the relevant date set for redemption is or is not (as applicable) a Mandatory Redemption Deferral Date. Any such certificate shall, in the absence of manifest error, be treated and accepted by the Issuer, the Trustee (on behalf of the Bondholders) and all other interested parties as correct and sufficient evidence thereof, shall be binding on all such persons and the Trustee shall be entitled to rely on such certificate without liability to any person.

“Mandatory Interest Deferral Date” means each Interest Payment Date (a) immediately following the date as of which the Issuer’s most recent quarterly report to the Issuer Supervisor disclosed that a Capital Requirement Breach has occurred, unless since the date of publication of such quarterly report, the issuer has remedied the Capital Requirement Breach; (b) in respect of which there is a risk that a Capital Requirement Breach or a Bankruptcy Event would occur as a result of the payment of interest; or (c) the occurrence of any event which under the Applicable Regulations would require the Issuer to defer or suspend payment of interest in respect of the Bonds (unless the Issuer Supervisor has waived such requirement), except that any such Interest Payment Date shall not be a Mandatory Interest Deferral Date if: (i) the Issuer Supervisor has exceptionally waived the deferral of interest payments; (ii) such interest payment does not further weaken the solvency position of the Issuer; and (iii) the Minimum Capital Requirement is complied with after the interest payment is made. Notwithstanding that an Interest Payment Date may be a Mandatory Interest Deferral Date, interest may still be paid on that relevant Interest Payment Date to the extent permitted under, and in accordance with, the Applicable Regulations.

“Optional Interest Deferral Date” means any Interest Payment Date which is not a Compulsory Interest Payment Date or a Mandatory Interest Deferral Date.

“Minimum Capital Requirement” means the minimum capital requirement for the Issuer as defined in Section 14-11 of the Financial Undertakings Act as further detailed in the Applicable Regulations.

Mandatory Deferral of Interest: The Issuer will on any Mandatory Interest Deferral Date by notice to the Trustee (together with a certificate signed by authorised signatories of the Issuer confirming the relevant Interest Payment Date is a Mandatory Interest Deferral Date) defer payment of all (but not only some) of the interest accrued but unpaid to that date.

Payment of Deferred Interest: Any interest not paid on an Optional Interest Deferral Date or a Mandatory Interest Deferral Date (**“Arrears of Interest”**) may at the option of the Issuer, be paid in whole or in part at the next Interest Payment Date which is not a Mandatory Interest Deferral Date, and shall, subject to prior approval from the Issuer Supervisor (to the extent required under the Applicable Regulations), be paid in whole on a date which is not a Mandatory Interest Deferral Date at the earliest of:

- (a) the next Interest Payment Date which is a Compulsory Interest Payment Date or seven (7) days after the date when the requirements for a Compulsory Interest Payment Date would be deemed to be satisfied, if such date falls earlier than the next Interest Payment Date;
- (b) the date of any redemption of the Bonds in accordance with the terms and conditions for the Bonds;

The term "deferral of interest" shall be understood in accordance with the Applicable Regulations.

Optional Redemption:

The Issuer may on the First Call Date or on any Interest Payment Date thereafter, if the Issuer provides satisfactory evidence to the Trustee (on behalf of the Bondholders), that: (i) in the opinion of the Issuer Supervisor no Capital Requirement Breach has occurred or is likely to occur as a result of a redemption, and (ii) the Issuer has received prior consent of the Issuer Supervisor, redeem in a manner permitted by any Applicable Regulations and other applicable law all (but not only some) of the outstanding Bonds at the Redemption Price, without any premium or penalty, however, together with any unpaid interest, to (but excluding) the repayment date.

If the Issuer is in a Capital Requirement Breach or repayment or redemption would lead to such Capital Requirement Breach, redemption may be made notwithstanding (i) and/or (ii) above if: (a) the Issuer Supervisor has exceptionally waived the suspension of repayment or redemption of that item; (b) the item is exchanged for or converted into another Tier 1, Tier 2 or basic Own-fund Item of at least the same quality; and (c) the Minimum Capital Requirement is complied with after the repayment or redemption.

In the case of redemption or purchase within the period of five (5) years from the Settlement Date, (A) the Issuer shall deliver a statement determining that the circumstances entitling it to exercise the right of redemption was concluded or judged to have been unlikely to occur at the Settlement Date; and (B) such redemption or purchase shall be funded out of the proceeds of a new issuance of capital of at least the same quality as the Bonds (unless such requirement no longer exists under the Applicable Regulations).

“Taxation Event” means an event which occurs as a result of any amendment to, clarification of or change (including any announced prospective change) in the laws or treaties (or regulations thereunder) of Norway affecting taxation (including any change in the interpretation by any court or authority entitled to do so) or any governmental action, on or after the Settlement Date, and there is a substantial risk that:

If the Bondholder has voted directly for any of its nominee registered Bonds, the Bondholder's votes shall take precedence over votes submitted by the nominee for the same Bonds.

A Summons for a repeated Bondholders' Meeting shall also contain the voting results obtained in the initial Bondholders' Meeting.
- (c) A repeated Bondholders' Meeting may only be convened once for each original Bondholders' Meeting. A repeated Bondholders' Meeting may be convened pursuant to the procedures of a Written Resolution in accordance with Clause 6.5 (*Written Resolutions*), even if the initial meeting was held pursuant to the procedures of a Bondholders' Meeting in accordance with Clause 6.2 (*Procedure for arranging a Bondholders' Meeting*) and vice versa.

- (a) Subject to these Bond Terms, anything which may be resolved by the Bondholders in a Bondholders' Meeting pursuant to Clause 6.1 (*Authority of the Bondholders' Meeting*) may also be resolved by way of a Written Resolution. A Written Resolution passed with the relevant majority is as valid as if it had been passed by the Bondholders in a Bondholders' Meeting, and any reference in any Finance Document to a Bondholders' Meeting shall be construed accordingly.
- (b) The person requesting a Bondholders' Meeting may instead request that the relevant matters are to be resolved by Written Resolution only, unless the Bond Trustee decides otherwise.

- (f) Only Bondholders of Voting Bonds registered with the CSD on the Relevant Record Date, or the beneficial owner thereof having presented relevant evidence to the Bond Trustee pursuant to Clause 5.3 (*Bondholders' rights*), will be counted in the Written Resolution.
- (g) A Written Resolution is passed when the requisite majority set out in paragraph (f) or paragraph (g) of Clause 6.1 (*Authority of Bondholders' Meeting*) has been obtained, based on a quorum of the total number of Voting Bonds, even if the Voting Period has not yet expired. A Written Resolution will also be passed if the sufficient numbers of negative votes are received prior to the expiry of the Voting Period.
- (h) The effective date of a Written Resolution passed prior to the expiry of the Voting Period is the date when the resolution is approved by the last Bondholder that results in the necessary voting majority being obtained.
